

**Economical Bulk Bags:
 Designed with an Eye on Twenty-First Century Agriculture.**

Economical and Practical.

At Berry Plastics – Tapes and Coatings Division, we know FIBCs. For more than three decades, countless industries have relied on the strengths of our research, design, and quality – not to mention our legendary brands: Marino Technologies, Atlas Bag, Walpole Bag, and Rafypak. It’s made us the largest bulk bag manufacturer in North America.

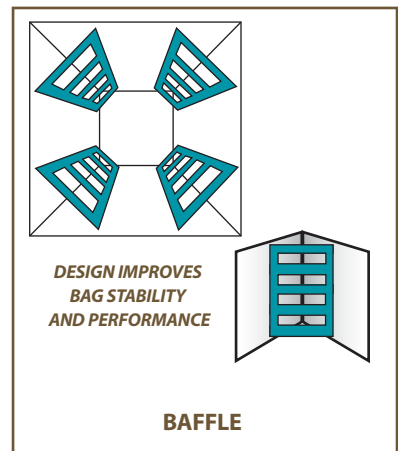

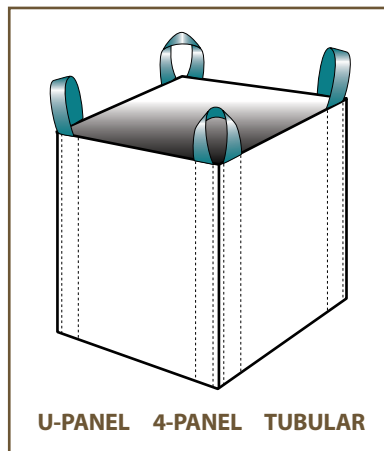

And now, Berry Plastics – Tapes and Coatings Division is addressing the needs of transporting crops in today’s fast-changing agricultural industries. Introducing AgriBags, agricultural bulk bags designed with the needs and requirements of modern-day agricultural management in mind. AgriBags incorporate the features and specifications necessary in global farming communities – all while eliminating unnecessary complexity and material waste. AgriBags are designed, sized, manufactured, and delivered for agriculture. Economically. And practically.

AgriBags™ Designs.
